### **Saskia Enckell**

Use before and After, because it shows how much GW

has changed for example how much ice has melted on how many years.

---

ANONYMOUS  
APRIL 01, 2013

### **Ena Sugita**

Use digrams explaining the causes or solutions so people know

what is causing global warming and so they also know how to stop global warming.

---

ANONYMOUS  
APRIL 01, 2013

### **Nicola Lindell**

explaining the causes to global warming by using pictures, sentences and pie charts

---

ANONYMOUS  
APRIL 01, 2013

### **Jeannie Lee**

Use pictures that help you understand what global warming is. For example, showing the gases produced by green house by using a pie chart other than communicating verbally.

---

### **What makes a good science poster?**

GLOBAL WARMING (GW)

---

ANONYMOUS  
APRIL 01, 2013

### **Takumi Nishi**

Putting how greenhouse gas causes to global warming.

So the people could understand how it causes global warming.

---

ANONYMOUS  
APRIL 01, 2013

### **Satoki Takamatsu**

Use pictures and diagrams for example diagrams

of how GW works so it has more impact on the people who are looking at the poster!

---

ANONYMOUS  
APRIL 01, 2013

### Chorin Sun

Write down ways to solve Global Warming, so people can solve it.

---

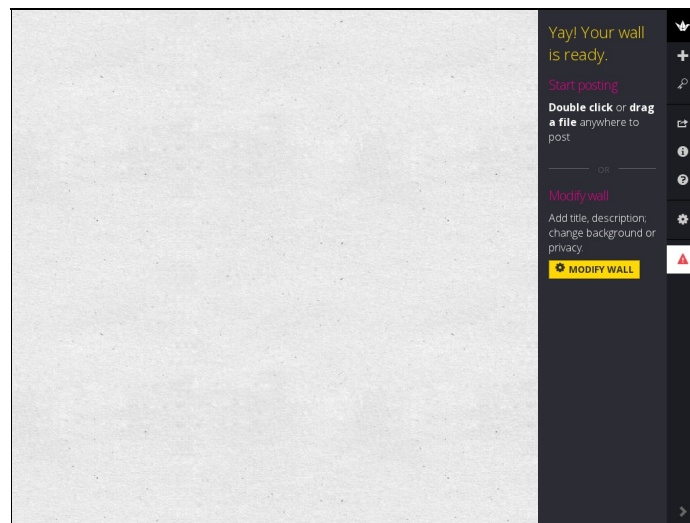

ANONYMOUS  
APRIL 01, 2013

### Benjamin Iizuka

Show pictures of consequences of GW then show pictures of solutions of GW.
